## WORK EXPERIENCE

### Frontend Developer Amdocs

11/2019 - 04/2021

Pune, IN

Optima PLDT - Phillipines / Cellcom - Israel

- Worked on multiple projects which fall in line of eCommerce for telecommunication platform. Some of the webpages included in the projects were list of products, add-ons pages, shopping cart, checkout page, customer profile and so on.
- Using TypeScript/ReactJs/JavaScript to develop High Fidelity Designs from Figma or Adobe XD and Connecting the Front end interface with the backend Microservices.
- Fetching data from a APIs, wrangling the response and render them onto variety of front-end designs. Storing the data onto Global State Management tool i.e. Redux or Flux.
- Collaboration with product team members to implement new feature developments as per given wireframes. Design and develop custom component for the project. Such as DatePicker, Data Table, Accordion etc.
- Developed REST APIs from scratch using NodeJs and ExpressJS as primary technologies although at times Spring boot MVC architecture was used.
- End to end testing of the entire product using Puppeteer, Jest or Enzyme. Putting test-driven development first and writing custom test functions.

### Software Developer Standard Chartered

06/2017 - 11/2019

Bangalore, IN

Communique

- Built a custom in house stack overflow like Web Application for employees within SC Bank to find relevant skilled colleagues to seek guidance in their projects and where developers can ask questions on the portals from fellow developers pertaining to the projects.
- Connecting app with External public APIs from GitHub and Stack Overflow to verify the skill level of the developer. Along with self review and public review of developer's skills.
- Custom Designing of UX and developing it through public libraries such as Material-UI and Semantic-UI.
- This tech stack of the portal was based on ReactJS, Java/Spring Boot, SQL and Linux based VM for deployment.
